

Crowd Manager Certification

Crowd Manager certification is an online training that focuses on fire safety and emergencies. ADA volunteers are not required — but highly encouraged — to complete this training. We are required to have a certain number of crowd managers at each event, so it's helpful to have many certified volunteers. It is relevant to many situations beyond ADA events.

This training takes about 45-60 minutes since slides are on a timer, and the state is now requiring multiple presentations. Here's how to complete the course:

1. Navigate to: <https://www.ncosfm.gov/licensing-cert/pyrotechnics/classes-pyrotechnic-license-fusing-crowd-manager>
2. Click "Register for crowd manager training."
3. Enter your information. Be sure to click "Crowd Management" under Course Select.
4. You will receive an email indicating that you have registered, be sure to save this email because if you can't complete the full two-part course in one sitting, you will use the link in the email to resume the course.
5. Begin with Introduction and Historical Incidents (15:25 min), review slides (they are on a timer and you cannot advance until the time is up), follow the prompts to advance through the slides.
